Notice

TO ALL B.E Students

(Civil /Computer /Electrical/Electronic and Telecommunication /Instrumentation /Mechanical)

The Training & Placement Cell at MPCOE, Velneshwar persistently encourages the students towards becoming perfect industry required employee. Training & Placement Cell will guide students on following activities

1. Interview techniques,
2. Group discussions,
3. Aptitude tests,
4. To provide in-plant training at industries,
5. To organize industrial visits for students,
6. To encourage students to face campus interview in the fields they desire,
7. To invite prospective companies to campus for recruitment, to achieve maximum possible placements for students.

Apart from imparting technical skills to students, the personality development programs are also an intrinsic part of their grooming. In order to improve the performance of students in the skills such as Technical, Aptitude, Communications, etc.,

MPCOE will conduct Personality Development Training Programs in addition to the soft skills training program arranged within the campus.

Online exams for placement

There are few websites which will manage placements directly to students via conducting online exams. Students need to register themselves in the websites and should gain their score cards by appearing for online exams.

Companies (Most of them will be MNC's) will go through those database of score cards and will invite students to interview processes according to their scores.

This is the trend which is going on with most of the companies. Following are the websites that manage the placements

AMCAT (<https://www.myamcat.com>) - Will offer online exams to students. Student needs to go to their venue and appear the exam. Exams will be on every weekends. (Fee will be around 700)

e-Litmus (<https://www.elitmus.com>) Exams same as above, but a student can improve his/her scores as many times as possible. (Fee will be around 1000)

Students are encouraged to enroll in both AMCAT and e-Litmus so as to have opportunities from sites.
