Notice to B.E Civil and Electrical Students

Campus drive is organised on 7th March at Gharda Engg college.

Name of the company -- Asahi India Glass Ltd.!!

Eligibility Criteria- GETs: Minimum 60% throughout (10th, 12th and Graduation). No
Five back paper.

We would be conducting the campus recruitment drive for GET's on 7th March '17 at 'Gharda
Institute of Technology'.

Please find below the details.

Time: 8:30 am

Date -- 7th March 2017.

Venue -- Gharda Engg college

We would like to introduce ourselves as being the largest glass company in India with a turnover of
2200 crore. AIS is transforming itself from being a manufacturer of world-class products to a
"Solutions" provider.

AIS has the following four operating business units:

- AIS Automotive Glass
- AIS Architectural Glass (Float and Glass Solutions)
- AIS Consumer Glass (Auto Services - AIM, AIA & WE and Glass Xpert)
- AIS Solar Glass

We have 4 major plants at the below mentioned locations:

- Bawal
- Taleja
- Roorkee
- Chennai

And 12 assembly units across India.

We are Conducting Campus Recruitment of Graduate Engineer Trainee(GET) in the field of
Mechanical , Chemical and Electrical engineering .

We shall be taking them as GET's.

- They will be on an operational training for 6 months for which a certificate will be provided.
- The students will be paid their salary during the period of training as well.

04.00 PM to 04.15 PM	Tea Break
4.15 PM to 4.30 PM	Conclusion & Vote of Thanks

Introduction to Industry Institute Interaction

In light of the liberal economic and industrial policy recently adopted by the Govt. of India, the industrial scenario is fast changing. The Industry-Institute Interaction should be designed to run longer period for preparing the manpower of world class in the field of Engg by inculcating the various skills required by the industry, thereby contributing to the economic and social development at large.

With several layers of collaboration being built by the government to develop the **Make in India** program, the manpower needs have to be fulfilled in order to witness the required development. Though availability of manpower is abundant in India, well equipped manpower with employability skills is the need of the hour. There is a need to create avenues for a close academia and industry interaction through all the phases of technology development, starting from conceptualizing to commercialization.

The emphasis has shifted to quality products and well trained manpower to produce such products. There has been a greater need for industries to depend on technical institutions for R&D and for supply of highly qualified and skilled manpower. Retraining of the work force has become major activity for all industries. There is, thus a good opportunity for institute to interact with industries for mutual benefits. The Industry-Institute Interaction would accrue mutual benefits when a symbiotic relationship is developed between the two systems.

The ultimate aim of this relationship will be the creation of confidence in industry by the Institute which would result industries involving voluntarily the Institute at various stages of its development. The development of such symbiotic relationship requires, firstly, careful understanding of the industry needs such as relevant R&D, cost effectiveness, time bound programs, technology upgradation etc. by the Institute and, in turn, understanding the capabilities and limitations of the institute by the Industry. Recognizing the above, following thrust areas have been identified which require immediate attention :

- Exchange of Experts between the Institute and Industry
- Involvement of Teaching Staff in Industry
- Institute to gain Confidence of Industry
- Institute as a Consultant in R&D
- Technological Database
- Continuing Education Program
- Establishment of Linkages
- Institute's Self-Reliance in Finances

Industry Institute Interaction will provide input to better teaching-learning processes, create awareness among the students about the environment of industry, provide real practical knowledge to students and provide self confidence for students to become an entrepreneur.

The above can be achieved by providing very good bridge between industry and the academic institute.

Industry Institute interaction cell.

Function was conducted by Instrumentation dept; ;

Industries like San Techno Memtors , Honeywell ,Pethe Brakes , Maruti Suzuki Chiplun , Suvidya inst of Technology, SV Ventures participated.

Institute --- Rajaram shinde COE, Rajendra Mane COE and MPCOE Faculties participated
