A: About Syllabus

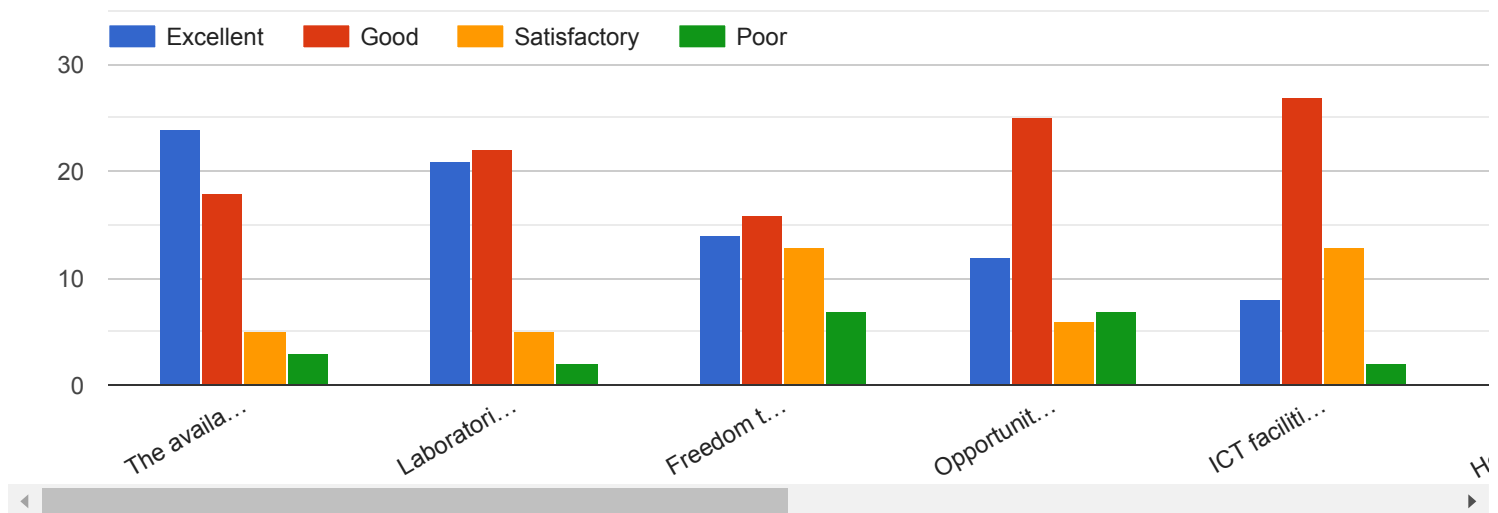

Choose appropriate option against each question based on your agreement

with the question. Excellent indicates strong agreement and Poor indicates low agreement.

B: About Institute

Choose appropriate option against each question based on your agreement with the question. Excellent indicates strong agreement and Poor indicates low agreement.

C. Other

Any other suggestions for improvement

17 responses

NA

Scope of improvement in training and placement field

There is need to create vacancy sources for currently studying students so that when they complete their BE they don't have to make struggle for searching the job. Market conditions for freshers is very crucial.

why god why!!!

College must have good sports infrastructure, good mess facility (food), cultural, sports and technical events should held on a wider scale for more participations from other colleges, training to tackle competitive examinations, career and personality development trainings, practical knowledge should be emphasized, banking facilities, medical facilities, most important thing is placement to kick start students career, incubation center for startups, sports teams to take part at university level, centers of excellence (innovation center).

People out there are narrow minded they cant afford if the woman is rising up mostly the computer facility they push the woman down to show they are so talented stop mental harassment like this.

should provide canteen facilities and gymnasium facilities to all student of mpcoe hostelers as well as outsider

Please decrease the hostel fees and improve mess quality.

More importance should be given to students' opinions/suggestions/requirements overall in campus. More efforts to be put by VPM towards personality development of students through demo presentations and debates etc.

Gives placement

Make A meeting of old students in may lot of employ have holiday in that months thats it over all good

Need more campus placement at regional midc

No

Please don't give important subjects, specially BE subjects to Miss. Prity Sathe (Bhole). Because she is not deserve that ,she is not technically able to teach engineering student ,she just make mentally harassment on student. Please I request to college to check the teaching of Miss. Prity Sathe by surprisingly attending her lecture. By appointing that type of teachers College management wasting student time, money and also career . So please don't waste lot of students future by appointing that's type of teachers. And please take action on my feedback otherwise don't take that's type of feedback to waste our time also .

Take more practical

1. Needed more tree in campus
